(*) additional installs are respectively 95¢, 60¢, and 45¢ per install / year

What happens if I don't use my annual quota?
The upfront annual fee is non-refundable. If the actual number of installs in a year is less than the amount provided, there is no refund of the payment.

What happens if I need more installs than my annual quota?
If the actual number of installs is higher, the next annual fee will be increased at the applicable per instal rate for the additional installations.

Your requirements are beyond the Platinum Package?
Millions of active users, Super-high SLA, Support for non-WebRTC spec codecs, Temasys offers the support that your enterprise requires.

What is the pricing then?
Depending on your requirements, the price goes from $100k/year to $200k/year.
